Context				
Academic Year	2019/2020			
School	School of Industrial and Information Engineering			
Name	(Bachelor of Science degree)(ord. 270) - MI (347) Chemical Engineering			
Track	N1L - Ingegneria Chimica			
Programme Year	1			
Course Details				
ID Code	054264			
Course Title	GENERAL CHEMISTRY			
Course Type	Mono-Disciplinary Course			
Credits (CFU / ECTS)	10.0			
Semester	First Semester			
Course Description	General chemistry involving structure of atoms and atomic nuclei - nucleogenesis and nuclear energy - bonding theory - valence bond, molecular orbital treatment of diatomic and polyatomic molecules - trends in the periodic table. Chemical reactions: acid-base, ox-red and ligand transfer - mass and energy balances (stoichiometry). Ideal gas laws, thermochemistry and thermodynamics - chemical kinetics. Atomic structure and trends - covalent bonding and molecular structure. Molecular and ionic equilibria. Intermolecular and ionic bonding, d-block and coordination chemistry. Heterogeneous equilibria and phase diagrams - Colligative properties. conductance, EMF and surface chemistry. Solid state chemistry - packing of metal atoms and ions in solids, typical AX, AX2 and selected crystal structures - lattice defects. Laboratory work - experiments involving qualitative analysis, introductory titrimetric analysis, gravimetric analysis, spectrophotometric analysis, measurement of rates of inorganic reactions, experiments in purification and separation techniques, chemical and ionic equilibria and buffer systems and pH, electrochemistry.

MOOCs For Teachers

Open Educational Resources are the result of a different approach to education: the focus is on sharing, improving and reusing educational materials created by people (not only super-experts) who are willing to let knowledge spread and be used by anyone.

# OER and Creative Commons Licenses

## UNESCO

"OER are teaching, learning and research materials in any medium, digital or otherwise, that reside in the public domain or have been released under an open license that permits no-cost access, use, adaptation and redistribution by others with no or limited restrictions."
